DETAILED ACTION

Allowable Subject Matter

Claims 1-26 and 28-31 are allowed.

The following is an examiner's statement of reasons for allowance: As set forth in the office action mailed on 11/02/2006, the prior art made of record does not teach or fairly suggest either alone or in combination approximating correlating a time at which each peak within the claimed proximity signal occurs with a value of the claimed oscillating wave at the time to yield a plurality of time-value pairs and approximating a topology of the surface of the optical disc from the plurality of time-value pairs and/or the prior art made of record does not teach or fairly suggest either alone or in combination where the beam-generating mechanism generate a beam output towards a reflective surface being oscillated to cause the beam to result in an oscillating wave and a means for tracking the reflective surface based on the claimed proximity signal and the claimed oscillating wave.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
